We are all in the same boat.

Many of us don't know what we're doing for our undergraduate degrees.

Many of us have tried coming up with a full plan.

Do you know if your plan will meet graduation requirements?

DegreeWorks

- DegreeWorks only handles general major requirements, not specific requirements
 - Concentrations
 - Technical Tracks
 - HASS Requirements

YACS & QUACS

- YACS/ QUACS only allow you to plan on a per-semester basis
- You do not have the ability to map out all 4 years

CourseMap

CourseMap is Different.

- DegreeWorks
 - Not much of a planning tool, just checks requirements
- YACS/QUACS
 - Only allow you to plan on a per-semester basis
- CourseMap is a general four-year course planner
- Allows you to lay out the roadmap for your future as an undergraduate students
- Ensures you stay on track and meet your future goals

CourseMap is Simple.

- Help you plan your college career:
 - Create your plans from templates for your school's majors and the concentrations offered.
- CourseMap ensures you and your advisor are on the same page:
 - You can submit your plans to your advisor.
 - Your advisors can review and approve or reject your plan.

The Demo.

Your Takeaways:

Planning for an undergraduate degree doesn't have to be so hard.

All relevant parties know your plan, and you can change your plans as needed.

You can rest easy knowing you're on track to graduate.

Our Offerings:

Enterprise Model

Benefits:

- We host your school's CourseMap.
- We handle your configuration.
- We manage your courses and requirements.

Drawbacks:

- The price.

Price:

[Monthly Flat Rate + Fee per User]

Self-Hosting Model

Benefits:

- Free.
- Configurable and extensible.

Drawbacks:

- Requires experienced system administrator.
- Requires server infrastructure.

Price:

Free.

Future plans

- Fully implement automatic prerequisite checking.
- Bug fixes and quality of life.
- Extend to other schools, majors, and concentrations.

Challenges.
